FRANKSONGROUP
Safe, comfortable, easy to clean

About Us :

In the Year 1984 we started a Company named " KINGFISHER INDIA ELEVATOR ". Initially ,We were supplying all types of Elevator in some cities of India. In the Year 2001, we made an Elevator Factory in a 2 Storied Building covering an area of 21280 Sq. Feet near Kolkata.

With the intension of making our Company with a Brand Name We started FRANKSON BRAND NAME with Registered Trademark, CE, ISO 9001-2008, ISO-18001-2007 & other Certifications in the Year 2008. Then we started Joint Venture in Technology Replacement with World Famous Branded Elevator Companies of China, Korea & European Countries.

FRANKSON GROUP is a growing Company. To provide better & prompt service & customer satisfaction , we started making a World Class Category Elevator Escalator & Travelator factory at Baduria covering an area of 57580 Sq Feet with four storied Decorative Office Complex Building. Now, We are importing 60% of the Materials from China , Korea , Europe & the rest 40% Materials are manufacturing in our own factory & then the Materials are being tested & assembled by our Qualified & Competent Engineer & then these Materials are installed in our Project site.

For Highrise Buildings , we are importing complete Lift Material from our associate Companies from China , Korea & European Branded Companies. You can compare our Lift Material with any Internationally reputed Branded Companies & this is our challenge. We have four types of Shipments & these are 1) Indian Shipment, 2) Chinese Shipment , 3) Korean Shipment, 4) European Shipment. As per the Customer's Project budget, we provide the Shipment.

Frankson Group (An ISO 9001-2008, ISO 18001-2007 & CE Certified Company) is a well known name in industry engaged in manufacturing, exporting, supplying and distributing of all types of high quality Elevators Escalator & Travelator. Our range of products includes Passenger lifts both with machine room and MRL, Home Lifts, Glass Panoramic Lifts, Hospital Lifts, Freight Lifts, Automobile Lift, Goods Lift, Hydraulic Lift, Escalators & Travelators. We are working on all cities of India & Nepal, Bhutan Bangladesh, Srilanka, Cambodia. Our Planning is to work on other Countries over the World. We have built a well developed infrastructure that is installed with latest machines and other related facilities that help us in fabricating the wide range of Lifts.

India Eastern Zone Second Factory
(38520 Sq. Ft. Area)

India Eastern Zone First Factory
(21280 Sq. Ft. Area)

Hospital Elevator Stretcher Elevator

Hospital Elevators provide easy transportation of patients and bulky medical equipment such as gurneys, stretchers and wheel chairs. These lifts feature sophisticated looks and operated smoothly.

Hospital Elevators are available in a wide variety, capable of carrying between 15 to 26 passengers at a time. These elevators usually feature center-opening, telescopic power-operated doors and easy to use for people

MR Type (Machine Room) Hospital Elevator

Intellectual Control

It applies radiation-free integrated control cabinet that combines contemporary industrial control technology with communication technology. All steel plate enclosed design shields radiation. It is convenient in maintenance. VVVF variable frequency control door machine system freely adjusts door machine running curve. It is safe in operation and stable in quality.

Noise Reducing

It combines with low noise traction machine design, car wall triple noise reducing technologies, running system noise reducing design. Elevator operational noise is less than 43dB. It does not affect your family's sleeping and rest.

Smooth and Comfortable

Smooth running system is specially designed for the old. The most comfortable speed running curve, smooth and soft start / stop are more suitable for use of old people.

Features

- Smooth & jerk less system.
- Less maintenance.
- Long life valves.
- Low noise & power saving systems.

FGLEC-1041

Safe, comfortable, easy to clean

The deep car and wide car door make it easy to accommodate beds, wheelchairs and hospital equipment. The stainless steel car wall is easy to clean and durable against scratches and bumps.

Deep car with handrails

The handrail is made of stainless steel. Its rounded design is safe and comfortable. (optional)

Deep car with handrail and buffer rails

The solid wood buffer rail protects the car wall from bumps by beds and medical equipment. (optional)

Ceiling

Soft illumination prevents disturbance to the patient on the bed

Flexible combination

- 3 walls with handrails (here the handrail partly acts as a buffer rail) or buffer rails.
- 1 handrail on the side wall, with 2 buffer rails on the other car walls – based on the customers' preference.

FGLEC-1042

Visual and functional design

A curtain of light enhances user safety and comfort during loading and unloading.

In addition to the normal right-angle wall joint, FRANKSONGROUP also offers round-cornered cars especially for the hospital environment, where hygiene is the first consideration. FRANKSONGROUP's round-corner design is much easier to clean than a right-angle joint.

In addition to single entrance cars (SEC), FRANKSONGROUP hospital bed elevators are also available with the through type car (TTC) option. This gives greater freedom when arranging the different departments in your building.

Two floor materials are available, both offering excellent durability. For details please refer to the decoration sheets.
